

2014 GED Test Information

What is the GED TEST?

The 2014 GED test is a four-subject high school equivalency test that measures skills required by high schools and requested by colleges and employers. The four subjects are Science (90 min.), Social Studies(90 min.), Mathematical Reasoning(115 min.), and Reasoning Through Language Arts(150 min./10 min. break). The test is offered on computer (paper available for accommodations only). After you pass the GED test, your diploma or credential will be issued by the state. You'll receive a GED transcript to apply to college, start training, or get a better job.
